## Speakers' Biography 演講者簡介:

**Dr. Michael Collasius**

**Dr. Michael Collasius** has played a vital role propelling the success of QIAGEN for past 20 years. He has served in several key positions including the General Manager of QIAGEN Instrument AG in Switzerland, the member of Executive Committee (EC), Global Head of Automated Systems, Head of Business Area, and Senior Vice President of Business Excellence.

Michael is currently the CEO and the co-owner of Hombrechtikon Systems Engineering AG (HSE). He is also the Co-Founder and President of Toolpoint Association with corporate members in Zurich area focusing on Lab Automation business since 2003.

Michael holds Diploma in Molecular Biology from University of Cologne, Germany, and Ph.D. from Max Planck Society.

**Tobias Brenner**

**Mr. Tobias Brenner** holds the BSc in Business Law from Zhaw School of Management and Law, and Master of Law from University of Lucerne.

In past 7 years Tobias has been contributing to various government entities and private law firms for several legal areas, including commercial and business law; constitutional and administrative law; migration law; private contracts and trusts; and criminal law.

## Europe-Taiwan Biotech Association (ETBA)

**Dr. Linus Kao**

**Dr. Linus Kao** holds the Bachelor and Master degrees in Mechanical Engineering from the National Cheng Kung University in Taiwan. To further pursue his interests in the biomedical arena, he went to U.S. for his PhD degree in Biomedical Engineering at the Case Western Reserve University.

Linus has acquired substantial working experience in both academic research organization (A\*Star Singapore) and life science industry (QIAGEN, HSE, Novartis), across APAC and EU regions. He is the founder and current president of Europe-Taiwan Biotech Association (ETBA).

**Dr. Anne Liao**

**Dr. Anne Liao** completed the School of Medicine at the Fu-Jen Catholic University in Taiwan and worked as a medical doctor at the Department of Family Medicine at Taipei City Hospital Ren-Ai Branch. She then obtained her Master's degrees in Science and Organisations of Health at the University of Lausanne.

Shortly after her studies, Anne started her career in the medical robotics industry at Hocoma as a clinical applications manager. From 2018 she will move to the pharmaceutical industry and work as a Medical Scientific Liaison at AstraZeneca.

**Dr. Ming K. Chang**

**Dr. Ming K. Chang** holds BSc in Genetics and Microbiology from the University of Otago, New Zealand; BSc (Honours degree in Biochemistry) and PhD (Cellular and Molecular Biology) from the University of Queensland, Australia.

Ming has been very active in the Life Sciences sector in Basel, Switzerland. She started her career in the pharmaceutical industry as a Presidential PostDoc Fellow at Novartis, and afterwards joined Roche as a Senior Scientist. In 2016 she transitioned into an advisory role for Life Sciences R&D as a Senior Strategy Consultant at Ernst & Young.
