The Taiwanese Community in Prague is going to host a gathering on the **Old Town Square from 10:10 till 11:00 AM on 16 May** to call for Taiwan's presence at the upcoming 72nd World Health Assembly in May 2019. I cordially invite you to attend this gathering to convey your support.

Taiwan has been excluded from the 70th and 71st WHA in the past two years and its participation in the WHO technical meetings has also been restricted, which has created serious gaps in the global health security system.

Health is human rights. As health issues know no national borders, a concerted global effort is the only way to effectively ensure the health and welfare of people around the world. It is unfair that the 23 million people of Taiwan are denied the right that the rest of the world enjoys, of participating in the global disease prevention system on an equal basis.

I therefore invite you to attend our gathering in person to facilitate Taiwan's participation in the upcoming 72nd WHA in May 2019, which aims to further promote universal health coverage and global cooperation in health-related matters for all humankind. Your prompt response to this letter will be highly appreciated.

Sincerely yours,

Amb. Joey C.I. Wang
Representative
