2016 JAN.-DEC.

Mission

- The national level healthcare professional training center
- Expand and advertise Taiwan as an international solid contributor

Introduction

The Taiwan International Healthcare Training Center (TIHTC) was established on August 29, 2002 by the Taipei Hospital, Ministry of Health and Welfare. The Center offers training and exchange programs for medical professionals from around the world to train in Taiwan.

Continuing education and hands-on training are essential to ensuring that all trainees stay abreast of the latest medical developments so that they are prepared to tackle new health challenges. The programs will provide crucial knowledge and practical experience to all the trainees who are strongly committed to enhancing health care services in their own countries.
