SEP.25-OCT.01

Objective

The objectives are dedicated to strengthening health systems towards achieving universal health coverage, and ensuring the safety and efficacy of clinical procedures in Anaesthesia, Surgery, Orthopaedics, and Obstetrics.

The Program was established to address challenges and take the lead in efforts to reduce global surgical burdens as a result of injuries, pregnancy-related complications, congenital anomalies, cancer, diabetic complications, infections, humanitarian crises and other surgical conditions.

This program contains TIHTC recommendations for minimum standards to improve quality and safety of emergency, surgery, trauma, obstetrics and anaesthesia at first-referral level health-care facilities.
