Support Mechanisms for France- Taiwan Innovation Program

Collaboration Framework

... provide all necessary assistance to companies involved in the project

... partially fund the project to secure its development

1 French + 1 Taiwanese company

Innovative products and application in any tech sector

With clear advantage and unique added-value

Key Points & Key Domains

Foster international cooperation between innovative companies

Support joint innovation projects to develop ready-to-market and tech-based solutions

Head for industrial upgrade and commercialization in both markets

Strengthen international partnership between large companies, SMEs and startups through innovation projects

International cooperation in innovation focuses on various sectors as:

Funding criteria – TIIP

TIIP will support its eligible participants according to its own funding criteria
