

# TIHTC

## 2020 TRAINING PROGRAM

# About TIHTC

## Introduction

The Taiwan International Healthcare Training Center (TIHTC) was established in 2002 by the Ministry of Health and Welfare (MOHW), and executed by Taipei Hospital, MOHW. TIHTC offers training and exchange programs for medical professionals around the world to continue their clinical training in Taiwan.

## Goals

- Strive to fulfill the ideologies of “health without borders” as declared by the World Health Organization, as well as be a contributor in the international community
- Promote the visibility of Taiwan through continuous effort in healthcare training of professionals, international emergency aid and medical assistance

## Missions

- Become a national level healthcare professional training center
- Promote Taiwan’s efforts and performances as a contributor in the international community

## 5 Main Tasks

### International Healthcare Professional Training

Trained over 1,600 international healthcare professionals from 68 countries

### International Healthcare Cooperation and Exchange

Signed partnership and cooperative relationship agreements in international healthcare development with 35 medical institutions in 10 countries

### International Visitation and Reception

Received nearly 1,300 international delegates from 63 partner countries

### International Healthcare Affairs Participation

Held and participated in nearly 50 domestic and international symposiums, seminars, and conferences

### International Emergency Medical Aid

Completed 20 rescue missions in 22 countries

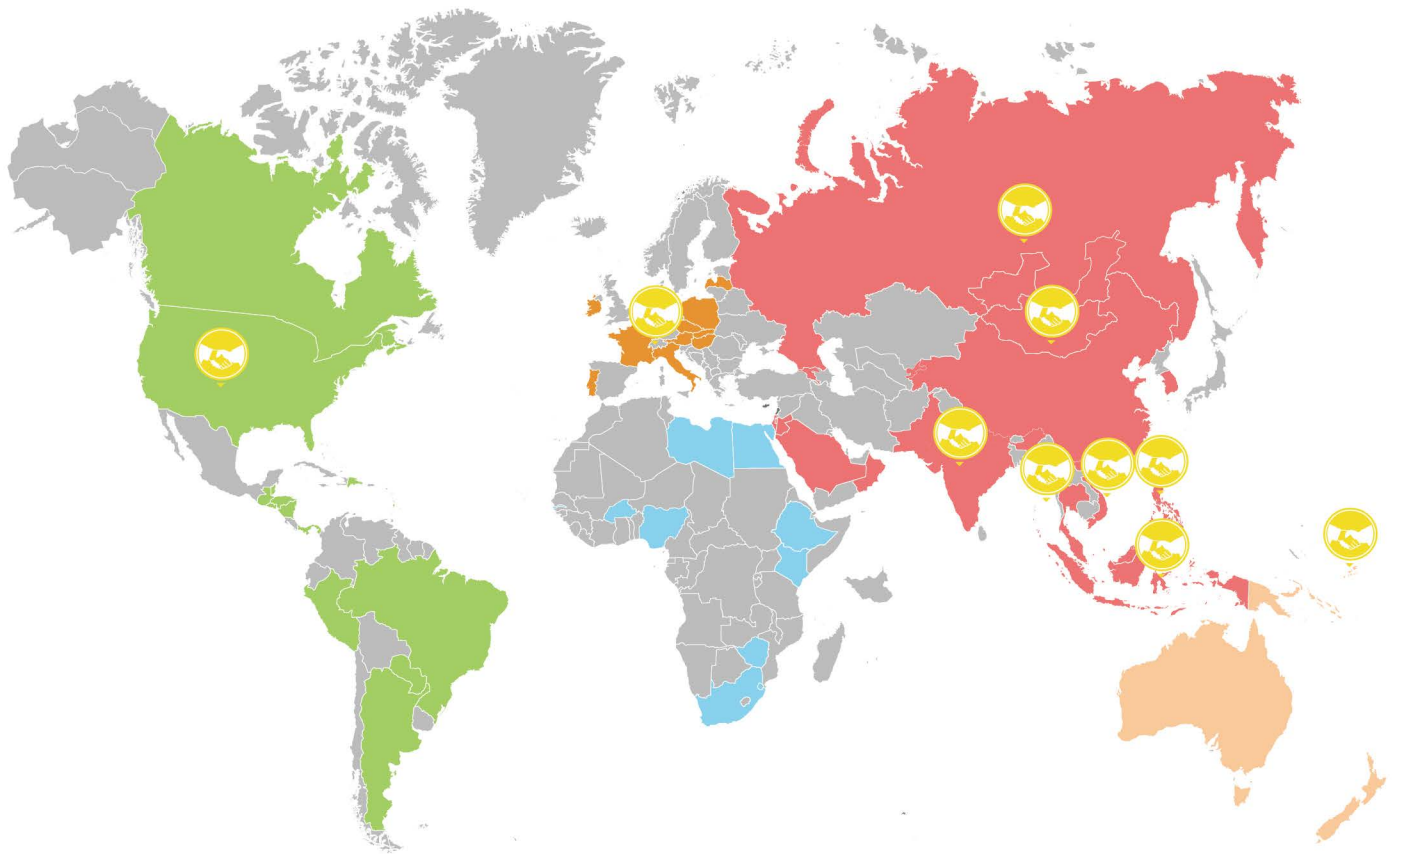

# Affiliated Networks and Partner Countries

In the past 18 years, TIHTC established cooperative partnerships with numerous medical institutions around the world to materialize our goal of "health without borders". We signed cooperation agreements with 35 hospitals and international organizations, healthcare institutions, education institutions, government agencies and international NGOs in countries including India, Indonesia, Luxembourg, Mongolia, the Marshall Islands, the Philippines, Russia, Thailand, the United States, and Vietnam.

TIHTC has become an international healthcare training network that is in alliance with the 26 Ministry of Health and Welfare affiliated hospitals, as well as 31 medical centers and regional hospitals. By integrating the top medical training resources available in Taiwan, TIHTC is capable of offering a one-stop, world-class healthcare training platform to international healthcare professionals who are looking to continue their training.

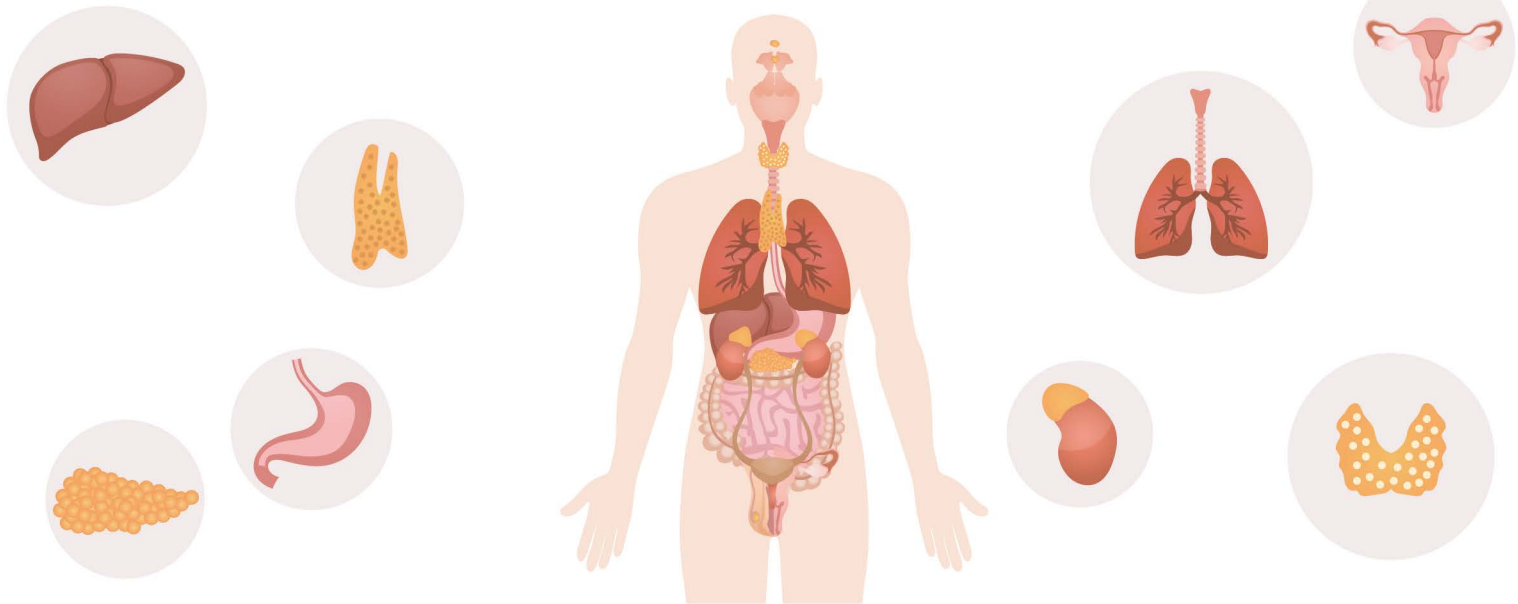

- 1 The Bronze Award of National Biotechnology and Medical Care Quality Award
- 2 First International Medical Model Price

# 2020 Clinical Training Programs

TIHTC provides professional clinical training programs to physicians, nurses, and medical technicians. During the clinical training program, participants will have the opportunity to observe the instructors, medical environment as well as the healthcare management approaches in Taiwan.

# 2020 Project Training Programs

## Acupuncture & Traditional Medicine

**Training Duration: Aug 24<sup>th</sup> – Sep 4<sup>th</sup>, 2020**

**Application Deadline: Jul 24<sup>th</sup>, 2020**

Traditional Chinese Medicine (TCM) has evolved since it was first used more than 2,000 years ago. Encompassing practices including tai-chi, acupuncture, and a variety of herbal remedies, Chinese medicine is used to prevent and treat many conditions.

To emphasize the advantages and advancements of TCM in Taiwan, TIHTC designed a two-week training course that includes the fundamental academic know-how and the application of TCM.

### LECTURE

- Acupuncture on Obesity & Soft Tissue Pain
- Insomnia & Cerebral Palsy with Acupuncture
- Research on Mechanisms of Acupuncture
- Tongue Diagnosis Method of TCM
- Menopause Syndrome with TCM
- TCM Herbal Introduction
- TCM Research in Taiwan
- Concept of Tui-Na (Massage)
- and more...

### VISITATION

- TCM hospitals
- TCM museums
- Herbal garden & scientific herbal medicine factories
- and more...

## Emergency Care & Burn Injuries Management

**Training Duration: Sep 14<sup>th</sup> – Sep 25<sup>th</sup>, 2020**

**Application Deadline: Aug 14<sup>th</sup>, 2020**

Emergency care is an essential part of the health system and serves as the first point of contact for the acutely ill and injured around the world. This program includes the professional medical teams, institutions, and associations related to emergency care and burn injuries to share their expertise.

### LECTURE

- Emergency Response Measures
- Disaster Medicine & Emergency Preparedness
- Introduction & Evolution of Taiwan Emergency Medical System (EMS)
- Emergency Medical Technician (EMT) Training & Protocol Development
- Dispatch System & Dispatch Assist CPR
- Medical Direction
- Emergency Department Management
- Large Scale Burn Care
- Wound & Scar Care
- Pain & Infection Control
- and more...

### VISITATION

- Emergency departments
- Burn centers
- Burn rehabilitation & prevention institution
- Fire department
- and more...

This training is co-organized by Taiwan Society of Emergency Medicine and Taiwan Society for Burn Injuries and Wound Healing

## Dual-Track Training Program

### 2 weeks project training plus 1~4 weeks clinical training for traditional Chinese medicine or emergency medicine

TIHTC will arrange international medical practitioners who apply for the dual-track training program to the clinical department for learning clinical cases under specialists. The applicant will gain a deeper understanding from a clinical perspective, such as Chinese medicine from diagnosis to treatment or the emergency medicine from triage to follow-up medical treatment.

Note: applicant has to meet the requirements of clinical training program

## Digital Health

**Training Duration: Oct 12<sup>th</sup> - Oct 17<sup>th</sup>, 2020**

**Application Deadline: Sep 12<sup>th</sup>, 2020**

Taiwan has long been renowned for its technological advancement as well as a comprehensive health system around the world and has developed one of the world's largest national health banks with the most coverage. In response to global trends, TIHTC is proud to announce the latest training course in digital health management.

The course takes a deep dive into the current digital health trends, telemedicine, and health data management practices that cover the types of digital health systems, environment, organizational structures, human resource management, and case studies. Furthermore, the course will offer an introductory look at big data application in smart health and the trends in digital health.

### LECTURE

- Introduction to eHealth Systems
- eHealth System Case Study
- Innovative Applications in Big Data Analysis on Health
- IoT and Digital Integration
- Cloud Computing & Big Data Analytics
- AI in Healthcare
- and more...

### VISITATION

- Healthcare corporations, smart medical technology firms
- Government health agencies
- and more...

## Customized Project Program

The customized project training program is a special program offered to the partner institutions that incorporates the most current topics in international healthcare. TIHTC will continue to develop the best customized project training program which is fully tailored to meet countries development needs!

## Healthcare Management & National Health Insurance

**Training Duration: Oct 26<sup>th</sup> - Nov 6<sup>th</sup>, 2020**

**Application Deadline: Sep 26, 2020**

Taiwan is well-known and ranked as the most affordable and accessible National Health Insurance (NHI) in the world. The objectives of this program are to improve concepts and skills in healthcare management, the development of national health insurance policy, promote leadership and intellectual development in management of international healthcare affairs, and facilitate international exchanges on healthcare affairs. The course will cover the core health leadership and competitiveness in depth.

### LECTURE

- Medical Care & Public Health System in Taiwan
- Hospital Information System in Taiwan
- Healthcare Financial Management
- Health & Medical Service in Remote Areas
- Healthcare Quality Improvement
- Hospital Accreditation
- Long-term Care Service
- Global Health Partnership
- Taiwan's NHI System & Perspectives
- NHI Medical Information & MediCloud System
- and more...

### VISITATION

- Medical centers, regional hospitals, district hospitals, and health centers
- Medical schools
- Government health agencies
- and more...

# Application Procedure

## Step 1

### Please prepare the following documentation for your application

#### A. Supporting documents

- A scanned copy of your passport's personal information page with clear information including your name, date of birth, passport number, and expiration date
- A passport-sized photo (scanned copy)
- Resume or curriculum vitae
- One or more letters of recommendation

#### If you are applying for Clinical Training Program

- A scanned copy of diploma or degree relevant to the field of medicine
- A scanned copy of medical license
- Documentation with proof of at least 1 year worth of medical practice in your country (this document must still have at least 6-month validity by the intended date of training)
- Copies of any other licenses, certifications or awards relevant to the program you are applying

#### If you are applying for Project Training Program

- A scanned copy of diploma or degree relevant to the field
- Copies of any other licenses, certifications or awards relevant to the program you are applying

#### B. Health report should have at least 3-month validity by the intended date of training

- Chest X-ray for pulmonary tuberculosis
- Hepatitis B status
- Serological test for syphilis
- Proof of positive measles and rubella antibody or measles and rubella vaccination certificates

#### C. Valid English proficiency certification or a self-introductory video in English (3-5 minutes)

## Step 2

### Complete the online application process and upload all the required supporting documentation

## Step 3

### Application review process

TIHTC will collect and confirm that all application documentation are received and in order. Applications will be forwarded to MOHW for official review, and TIHTC will update you of the application status accordingly.

Note: we encourage applicants to apply as early as possible and make sure all documentation is in order before submission

## Step 4

### Application results

Upon receiving final results of your application from MOHW, TIHTC will notify applicants via email accordingly. Applicants will also receive the following documentation for the visa application and travel arrangements.

- Approval letter from MOHW
- Invitation letter from TIHTC
- Training admission packet
