 - Venue: Kaohsiung Exhibition Center
- 

About

An initiative of Kaohsiung

2018 Global Harbor Cities Forum will again bring together harbor cities in the globe to discuss and tackle common challenges faced by the city leaders. The objective of the forum is to call for collaboration among harbor cities and to come up with strategies that can foster urban transformation and create economic prosperity.

Objectives

Identify challenges and difficulties shared by the global harbor cities.

Promote industrial transformation and urban development in the harbor cities

Provide a platform for collaboration in harbor cities and to build a strong business alliance

History

2015

“2015 International Conference for Harbor Cities” invited cities leaders from LA USA, Busan Korea, Marseille France and Vancouver Canada to share ideas on city governance and develop cooperative opportunities.

2016

Theme: From Past to the Future – Transformation and Cooperation

2016 Global Cities Forum Statement

□ Vibrant Harbor Cities

Successful city and port development can become engines for urban/regional/national economic growth.

□ Green and Smart Harbor Cities

A smart harbor city, which combines smart technologies in an urban and environmental context, provide great potential for creating a livable city with flourishing economy.

□ Positive Synergy between Ports and Cities

Encouraging ports and cities to find the positive synergy between diverging perspectives and priorities.

□ Integrated Planning Framework for Harbor Cities

Build joint planning efforts to avoid unnecessary tensions in stakeholders and facilitate collaborations based on the recognition of their interdependence.

□ Dialogue between Harbor Cities

Call on harbor cities across the globe to work together to address common challenges, to support each others, and to adopt good practices.
